

END OF SEMESTER EVALUATION

1. Please comment on the overall class organization and content. Were course goals clearly articulated and met? Do you have any suggestions for improvements regarding the overall structure of the course?
  - The class ~~was~~ well organized, the course goals were clearly articulated in the syllabus + met
  - Have class meet more often for a shorter amt of time
  
2. Are the class activities appropriate? What class activities do you find most valuable? Which do you find least valuable?
  - class activities were appropriate
  - ~~X~~ Most beneficial: small group convo
  - least " : passage analysis
  
3. Comment on the assignments. Were the reading assignments appropriate in content and length? Were the papers and daily assignments helpful and productive?
  - Reading assignments were of an appropriate length
  - I would have liked to have the option to write q's or commentary for the blog. Seeing other students' posts would have been nice
  
4. What do you think about the teacher's manner and attitude in class? What supportive criticism can you offer? What can you say about the availability of the teacher?
  - Always upbeat + happy
  - There were often lulls in the ~~course~~ conversation. Ask a new question or reiterate ~~X~~ instead of waiting for someone to finally say something
  
5. Any additional comments on the course content or teacher's performance?
 

N/A

END OF SEMESTER EVALUATION

1. Please comment on the overall class organization and content. Were course goals clearly articulated and met? Do you have any suggestions for improvements regarding the overall structure of the course?

Yes! Well organized, well articulated. expectations were always clear. nice job!

2. Are the class activities appropriate? What class activities do you find most valuable? Which do you find least valuable?

Yep! Discussion is always good, and the powerpoints were nice - informative, but without overloading us with info.

3. Comment on the assignments. Were the reading assignments appropriate in content and length? Were the papers and daily assignments helpful and productive?

Some assignments were longer than others, I think (or maybe some just took me longer!) but never too long. The weekly assignments were definitely helpful - especially the footnotes - never felt like busywork.

4. What do you think about the teacher's manner and attitude in class? What supportive criticism can you offer? What can you say about the availability of the teacher?

Good! This class was so small - and some of the students so quiet - that it was a little hard to have discussions, but Prof. Swanson definitely did her best. (If the class is this size in the future, it might be better to have it as a twice-a-week class so we could go more in-depth on more

5. Any additional comments on the course content or teacher's performance? specific readings?!

nope! I really enjoyed the class and the readings we did - I definitely learned a lot and had a lot of fun!

END OF SEMESTER EVALUATION

1. Please comment on the overall class organization and content. Were course goals clearly articulated and met? Do you have any suggestions for improvements regarding the overall structure of the course?

*The overall class organization worked well.*

2. Are the class activities appropriate? What class activities do you find most valuable? Which do you find least valuable?

*I thought most of I think sometimes it would have been nice to have slightly more structure.*

3. Comment on the assignments. Were the reading assignments appropriate in content and length? Were the papers and daily assignments helpful and productive?

*Overall the assignments seemed good. I liked the reading questions, but it was often unclear when they were due. The amount of reading seems right. Usually equivalent courses have a longer paper, but I didn't really mind not having one!*

4. What do you think about the teacher's manner and attitude in class? What supportive criticism can you offer? What can you say about the availability of the teacher?

*The instructor had a good presence in class, but occasionally seemed a little shy. Since we are all a little reluctant to speak in French, this had the effect of making the class as a whole ~~be~~ more quiet.*

5. Any additional comments on the course content or teacher's performance?

*I really enjoyed the class, thank you!*

END OF SEMESTER EVALUATION

1. Please comment on the overall class organization and content. Were course goals clearly articulated and met? Do you have any suggestions for improvements regarding the overall structure of the course?

Class was very well organized. All course goals were met.

2. Are the class activities appropriate? What class activities do you find most valuable? Which do you find least valuable?

I think the professor chose excellent activities for each discussion topic. The least valuable one was probably the weekly blog.

3. Comment on the assignments. Were the reading assignments appropriate in content and length? Were the papers and daily assignments helpful and productive?

Yes. Course work was appropriate for a 300 level course. All assignments were helpful in comprehension.

4. What do you think about the teacher's manner and attitude in class? What supportive criticism can you offer? What can you say about the availability of the teacher?

The professor was always very kind and supportive. She was also stern when necessary. She always seemed to be available if necessary.

5. Any additional comments on the course content or teacher's performance?

It was a very interesting class. Great stuff!

END OF SEMESTER EVALUATION

1. Please comment on the overall class organization and content. Were course goals clearly articulated and met? Do you have any suggestions for improvements regarding the overall structure of the course?

It was well done! The sections all made sense & had obvious themes,

2. Are the class activities appropriate? What class activities do you find most valuable? Which do you find least valuable?

I would have appreciated a bit more lecture, because maintaining class discussion with a small group is difficult, especially if we break up into groups. Better to have us just talk among ourselves.

3. Comment on the assignments. Were the reading assignments appropriate in content and length? Were the papers and daily assignments helpful and productive?

Sometimes they could be really long & frustrating because of the creole. The papers were a nice way to explore our interests in various themes. The daily assignments felt a bit like busy work, because

4. What do you think about the teacher's manner and attitude in class? What supportive criticism can you offer? What can you say about the availability of the teacher?

She was very sweet, kind, & amiable. <sup>nobody could reach anybody else posts.</sup>  
A little late with her email sometimes (like with assignments), but she had a winning personality

5. Any additional comments on the course content or teacher's performance?

It was a great class! Thanks! I really enjoyed it. 😊
