1. **LEARNING:** What have you learned from this course? Consider, **as appropriate**, how the course deepened your critical or analytical abilities, factual knowledge, understanding of concepts, creativity, communication skills, and ability to pursue further work in the subject.

I have learned alot about culture in some francophone countries such as Senegal and Haiti. I also learned more grammar rules of the french language.

at times class seemed very unorganized. I also do not think it is fair to scale down the grading system. I also don't think it is fair to not be able to get a 100% on either homework or participation which is 20% of my grade. Also many clarifying questions about grammar were not really answered.

2. **YOUR PARTICIPATION:** How would you assess your own effort in the course? How much effort did you expend as compared to your other classes?

I put in a significant amount of effort. I come to all classes, do all homework and fulfill the lab requirements. Compared to my other classes, which are STEM, this requires slightly less attention but not by too much.

3. **COURSE CONTENT AND FORMAT:** How did the various components of the course contribute to your learning? Consider, **as appropriate**, lectures, readings, writing assignments, problem sets, films, labs, drills, studio work, debates, discussions, presentations, field work, or group work.

WHY did you make the recommendation above?

The class is okay but unfortunately unorganized (like not discuss/finish assignments until the last minute) and the grading scale is shifted down which is not helpful. You often times cannot get above a 94/96 on most things and a 90 is a B+. If things were less last minute, more organized and there was a better grading system then it would be better.

1. **LEARNING:** What have you learned from this course? Consider, **as appropriate**, how the course deepened your critical or analytical abilities, factual knowledge, understanding of concepts, creativity, communication skills, and ability to pursue further work in the subject.

I've learned a lot about different verb tenses and a lot of new and more complex grammar. Additionally, I've learned a lot about different cultures. I feel as if my reading and writing skills have improved, however my speaking hasn't.

2. **YOUR PARTICIPATION:** How would you assess your own effort in the course? How much effort did you expend as compared to your other classes?

I put the most effort into this class compared to my other courses because I enjoy french the most and I would say that there are a lot of moving parts to this course that require effort and attention.

3. **COURSE CONTENT AND FORMAT:** How did the various components of the course contribute to your learning? Consider, **as appropriate**, lectures, readings, writing assignments, problem sets, films, labs, drills, studio work, debates, discussions, presentations, field work, or group work.

I enjoyed the movies, the videos of Stromae, and all the group work. I think the gram and vocab books were very good materials for this course. Additionally, I had fun with Clara, but it felt like too much at that point, and kind of separate from the class, random.

I have learned in depth how to form and use the many tenses of speech in French. Also vocabulary and Francophone culture.

2. **YOUR PARTICIPATION:** How would you assess your own effort in the course? How much effort did you expend as compared to your other classes?

I put in a lot of effort outside of class to do the work and study before exams. However, I did not speak in class as much as I wanted to.

3. **COURSE CONTENT AND FORMAT:** How did the various components of the course contribute to your learning? Consider, **as appropriate**, lectures, readings, writing assignments, problem sets, films, labs, drills, studio work, debates, discussions, presentations, field work, or group work.

Doing a lot of inclass exercises, and comparing with other students helped me get a better grasp on the information. It was also good that we discussed the short stories and films in class to deepen our understanding.

1. **LEARNING:** What have you learned from this course? Consider, **as appropriate**, how the course deepened your critical or analytical abilities, factual knowledge, understanding of concepts, creativity, communication skills, and ability to pursue further work in the subject.

I learned more about French grammar and also about Francophone cultures and the history of Francophone countries.

2. **YOUR PARTICIPATION:** How would you assess your own effort in the course? How much effort did you expend as compared to your other classes?

I expended a lot of effort in this course, the same amount I expended in other courses.

3. **COURSE CONTENT AND FORMAT:** How did the various components of the course contribute to your learning? Consider, **as appropriate**, lectures, readings, writing assignments, problem sets, films, labs, drills, studio work, debates, discussions, presentations, field work, or group work.

The lectures helped me learn how to better listen to and speak French. Going to the language lab and meeting with a native French speaker also helped that. The readings helped me learn more about culture and history. Text exercises helped me understand grammar.

The professor did not always spend a lot of time explaining grammar rules but she allowed us to develop understanding by writing through the exercises on our own. She helped I think us a lot about culture through several assignments and activities.

1. **LEARNING:** What have you learned from this course? Consider, **as appropriate**, how the course deepened your critical or analytical abilities, factual knowledge, understanding of concepts, creativity, communication skills, and ability to pursue further work in the subject.

This course bettered my communication skills in French, made me more confident to hold a conversation in French & introduced me to the cultures of different French-speaking countries

2. **YOUR PARTICIPATION:** How would you assess your own effort in the course? How much effort did you expend as compared to your other classes?

Since I'm an engineering major, I didn't exert as much effort as in my engineering classes but I definitely did my best.

3. **COURSE CONTENT AND FORMAT:** How did the various components of the course contribute to your learning? Consider, **as appropriate**, lectures, readings, writing assignments, problem sets, films, labs, drills, studio work, debates, discussions, presentations, field work, or group work.

The lectures were good for speaking. Grammar explanation was very bad, she expects us to know the material beforehand. Group work is good & useful... too much though! Sometimes it's better to work by ourselves to make sure we understand the material.

→ She's good at speaking definitely? helps us to speak too
