1. **LEARNING:** What have you learned from this course? Consider, **as appropriate**, how the course deepened your critical or analytical abilities, factual knowledge, understanding of concepts, creativity, communication skills, and ability to pursue further work in the subject.

I have learned the historical contexts and significance of events in France ranging from the French Revolution to the 1990's.

2. **YOUR PARTICIPATION:** How would you assess your own effort in the course? How much effort did you expend as compared to your other classes?

I put about an hour of work into each reading assignment which was a fairly small amount of effort compared to some of my other classes.

3. **COURSE CONTENT AND FORMAT:** How did the various components of the course contribute to your learning? Consider, **as appropriate**, lectures, readings, writing assignments, problem sets, films, labs, drills, studio work, debates, discussions, presentations, field work, or group work.

Class discussions and group work contributed the most to my learning as well as the films we watched.

6. **INSTRUCTION:** How effective was the instructor in fostering learning? Consider **as appropriate** the instructor's ability to enable the development of skills, facilitate discussion, help you to understand concepts, course material, and their significance.

The professor was good at leading class discussions and teaching the material at a good pace. However, in the future I think forcing us to give presentations in class or doing more projects recording ourselves in French could be really helpful!
