1. **LEARNING:** What have you learned from this course? Consider, **as appropriate**, how the course deepened your critical or analytical abilities, factual knowledge, understanding of concepts, creativity, communication skills, and ability to pursue further work in the subject.

I learnt a lot about zombies and the factual history behind them. I do not think that the copious amounts of reading helped my critical reading skills but I did learn to communicate my ideas.

2. **YOUR PARTICIPATION:** How would you assess your own effort in the course? How much effort did you expend as compared to your other classes?

This was not only one of my most intensive courses but also from what I have heard, by far one of the most intensive FVS courses. Between the 3 books that we read, the movies that we watched and the mounds of scholarly articles, book chapters and papers we read, a lot of effort went into it.

3. **COURSE CONTENT AND FORMAT:** How did the various components of the course contribute to your learning? Consider, **as appropriate**, lectures, readings, writing assignments, problem sets, films, labs, drills, studio work, debates, discussions, presentations, field work, or group work.

The group discussions with the variety of ideas were probably my favourite part of the course. The lectures were very helpful, especially the ones on MLA formatting which I wish was done earlier in the course because we were, up till then, just figuring things out by ourselves.

2. **YOUR PARTICIPATION:** How would you assess your own effort in the course? How much effort did you expend as compared to your other classes?

I put some effort into the course. I did not participate as much as I would have liked but I gave my full attention with other assignments.

3. **COURSE CONTENT AND FORMAT:** How did the various components of the course contribute to your learning? Consider, **as appropriate**, lectures, readings, writing assignments, problem sets, films, labs, drills, studio work, debates, discussions, presentations, field work, or group work.

The films were most effective for learning. The readings were too long and dense to realistically get done in the assigned time.

She was great, Always willing to answer the historical/film questions. Incredibly good at fostering learning and discussion, just absolutely no help with writing. She would help fix grammar and structure but few explanations as to how to avoid it in future. Amazing with lectures and I feel I understand the topic, just wished there was more writing analysis.
