1. Please comment on the overall performance of the instructor. Did she help you to further develop your speaking, listening, reading and writing skills in French and understand cultural material? What were her strengths and areas for improvement?

Prof Swanson was awesome. My understanding of the French speaking world has improved greatly.

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

I think that I learned a great deal and that I've started to really consolidate my french language skills. I came in with very weak reading, listening, speaking and writing abilities and they have all improved dramatically.

3. Please comment on course assignments. Did they help you to learn, and did you find them fair and relevant to course goals? Was the grading fair and the feedback helpful?

The best assignments were the ones that had us engage with authentic texts (e.g. Persepolis, «Art»), watching Les Revenants briefly). The other times when we practiced the language seemed forced, or fake, and I'm not sure if it translates into real life conversation. Grading was definitely fair.

4. Please comment on the instructor's demeanor and accessibility. Was she successful in creating an environment conducive to learning? Was she accessible outside of class?

She's the best. She's really laid back, accessible, and always receptive to students' thoughts, ideas, and feelings. She creates an open, constructive learning environment.

5. Is there any other aspect of the course or of the instructor's performance you would like to comment on?

Extra credit for going to Table Française would be a way to get us to use the language. Mariam and Tara were great!

1. Please comment on the overall performance of the instructor. Did she help you to further develop your speaking, listening, reading and writing skills in French and understand cultural material? What were her strengths and areas for improvement?

The instructor was very helpful in furthering my speaking/reading/writing abilities when I put in the effort. I can see how it would be easy to fall behind, however, if I lacked motivation.

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

Most was review from high school. Speaking and reading activities were particularly helpful, especially those pertaining to a text or film. The workbook activities were barely helpful at all.

3. Please comment on course assignments. Did they help you to learn, and did you find them fair and relevant to course goals? Was the grading fair and the feedback helpful?

Workbook activities were not very helpful, reading texts/watching films was far more effective. Grading was always fair and goals were clear.

4. Please comment on the instructor's demeanor and accessibility. Was she successful in creating an environment conducive to learning? Was she accessible outside of class?

The instructor was always very approachable and friendly. She certainly created an environment where I felt comfortable practicing/learning French. She had office hours, though I never found myself needing to go.

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

I think I learned a lot in this course. The compositions were very helpful in my writing french goals. I also enjoyed the group talking activities. Watching things in french seemed less helpful for me

3. Please comment on course assignments. Did they help you to learn, and did you find them fair and relevant to course goals? Was the grading fair and the feedback helpful?

Yes, although we didn't have that many assignments outside of routine book work. A project or two would have been cool

1. Please comment on the overall performance of the instructor. Did she help you to further develop your speaking, listening, reading and writing skills in French and understand cultural material? What were her strengths and areas for improvement?

She definitely was helpful in working with us to develop our French. The exams were perfectly challenging but also fair. The textbook + listening assignments helped to enhance cultural understanding + oral comprehension. In class it would have been more helpful to go more in depth in the grammar portions however.

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

1. Please comment on the overall performance of the instructor. Did she help you to further develop your speaking, listening, reading and writing skills in French and understand cultural material? What were her strengths and areas for improvement?

I think that my listening and reading skills were improved, but more in class speaking [Ex. reading paragraphs of the Note Culturelle together out loud] would have helped me to improve my speech. I think I got a good understanding of French culture.

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

Activities where we could be corrected (doing exercises, etc.) were good because they helped point out what was going wrong. Speaking hypothetically wasn't as helpful.

1. Please comment on the overall performance of the instructor. Did she help you to further develop your speaking, listening, reading and writing skills in French and understand cultural material? What were her strengths and areas for improvement?

Be every class was conducted almost exclusively in French, speaking and listening skills were used and cultivated constantly. Through class activities and the two essays we wrote, writing skills were also improved. Reading I think could have used some more work, I don't feel my skills there have improved too much.

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

I feel like I learned a lot in this course and found doing book exercises with partners in class as well as having TA sessions helped the most. I didn't like so much writing mini stories in class bc they didn't seem as helpful.

3. Please comment on course assignments. Did they help you to learn, and did you find them fair and relevant to course goals? Was the grading fair and the feedback helpful?

I think hw was a good amount and very helpful. Essays were really great bc had to integrate all knowledge and got 2 drafts with averaged grade was super bc got great feedback and a second chance to improve writing.

4. Please comment on the instructor's demeanor and accessibility. Was she successful in creating an environment conducive to learning? Was she accessible outside of class?

Prof Swanson was ALWAYS so enthusiastic and helpful, which made learning much easier and much more fun. I never needed to see her outside of class, but she always responded to emails very quickly.

5. Is there any other aspect of the course or of the instructor's performance you would like to comment on?

1. Please comment on the overall performance of the instructor. Did she help you to further develop your speaking, listening, reading and writing skills in French and understand cultural material? What were her strengths and areas for improvement?

Professor Swanson helped me develop my skills in French and improve my understanding of French culture by being patient and attentive, as well as accommodating to my needs in and out of class.

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

I feel that I've learned a lot in this course - one semester in this course taught me more about French than I'd learned in previous years. The small group/partner activities were the most helpful for me, and the presentation-like activities were the least helpful.

3. Please comment on course assignments. Did they help you to learn, and did you find them fair and relevant to course goals? Was the grading fair and the feedback helpful?

The course assignments were extremely helpful. They gave a fair and complete picture of where I was in the class, what I understood, and what to improve on. The feedback helped me improve on these materials.

4. Please comment on the instructor's demeanor and accessibility. Was she successful in creating an environment conducive to learning? Was she accessible outside of class?

Prof. Swanson is very easy to talk to, as she is very understanding, patient, and open. She created an environment that was conducive to learning because it was relaxed and comfortable.

1. Please comment on the overall performance of the instructor. Did she help you to further develop your speaking, listening, reading and writing skills in French and understand cultural material? What were her strengths and areas for improvement?

- I think Prof Swanson helped a lot with speaking and writing through commentary on our essays and listening to our peer dialogue and correcting our mistakes.

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

- we went through topics very fast and with little time to go over confusions so a lot was taught but I don't think a lot was effectively learned

- the student activities manual ^{and 4th hour} was helpful

- I think there were too many peer activities that weren't helpful since we were confused a lot

3. Please comment on course assignments. Did they help you to learn, and did you find them fair and relevant to course goals? Was the grading fair and the feedback helpful?

- for the feedback on the written assignments was great in terms of grammatical correction but I think a little more commentary would be better.

4. Please comment on the instructor's demeanor and accessibility. Was she successful in creating an environment conducive to learning? Was she accessible outside of class?

- she was good with accessibility and her demeanor was very encouraging. I think it would be nice if she had more office hours.

5. Is there any other aspect of the course or of the instructor's performance you would like to comment on?

- I think «Art» was a rather difficult text to rush through the way we did. More time needs to be spent on analyzing the text.

Final Course Evaluation

1. Please comment on the overall performance of the instructor. Did she help you to further develop your speaking, listening, reading and writing skills in French and understand cultural material? What were her strengths and areas for improvement?

She was very good at engaging with the class and creating a safe space, but some of the activities were fairly difficult and didn't really help with learning the material.

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

Group activities were usually helpful though they also made it much more tempting to speak in English. There were other times when activities were difficult not because of the material, but because it was challenging to come up with a response to the prompt in general.

3. Please comment on course assignments. Did they help you to learn, and did you find them fair and relevant to course goals? Was the grading fair and the feedback helpful?

Yes, I'd say so. Most assignments were out of a workbook, with a few papers thrown in. Fairly standard, but good for practising the material.

4. Please comment on the instructor's demeanor and accessibility. Was she successful in creating an environment conducive to learning? Was she accessible outside of class?

Yes. The instructor's demeanor was always upbeat, creating a more relaxed classroom environment.

Professor did help me further my French skills and understanding of the culture.

Her strengths included her energy in the classroom.

2. Please comment on the amount learned in this course. Which activities were most helpful in achieving course goals? Which activities were less helpful?

I found the speaking parts of the course to be the most helpful, ie when we would break up into groups and speak about a topic of - fill-in-the-blanks-type activities.

TAs were probably less helpful.

3. Please comment on course assignments. Did they help you to learn, and did you find them fair and relevant to course goals? Was the grading fair and the feedback helpful?

The assignments (essays, bookwork) were helpful for achieving my goals. It was a great way to strengthen the skills gained in class.

The grades and feedback was also helpful.

~~It~~ I really enjoyed the assignments where we looked at French news.

4. Please comment on the instructor's demeanor and accessibility. Was she successful in creating an environment conducive to learning? Was she accessible outside of class?
