1. **LEARNING:** What have you learned from this course? Consider, **as appropriate**, how the course deepened your critical or analytical abilities, factual knowledge, understanding of concepts, creativity, communication skills, and ability to pursue further work in the subject.

I think I learned a lot in this course. I was really bad at French and I think the readings helped me understand "better". It also helped that Swanson spoke in French.

2. **YOUR PARTICIPATION:** How would you assess your own effort in the course? How much effort did you expend as compared to your other classes?

I definitely could've participated more but everyone was better than me so I was kind of afraid to participate. I participated a lot in the pairs and small groups, and I did all my homework and everything.

3. **COURSE CONTENT AND FORMAT:** How did the various components of the course contribute to your learning? Consider, **as appropriate**, lectures, readings, writing assignments, problem sets, films, labs, drills, studio work, debates, discussions, presentations, field work, or group work.

I liked the readings and while they were tedious they improved my vocab a lot. I liked the movie if they had subtitles but otherwise the people spoke kind a fast so it was hard to understand them.
